

# Licensed products and upgrade/downgrade rights

&nbsp; &nbsp; &nbsp;

Primary	Publisher	Product	Summary of use rights	Edit use rights
Yes	IBM	Event Endpoint Management for Non Production	Can consume 2 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	MQ Advanced Container Multi Instance	Can consume 5 VPC(s) for each 3 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	Process Mining Events Add-on	Can consume 10 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	WebSphere MQ Server	Can consume 4 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	MQ High Availability Replica	Can consume 20 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	MQ High Availability Replica for Non Production	Can consume 40 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	Event Endpoint Management	Can consume 1 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	Task Mining Agent Add-on	Can consume 22 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	Robotic Process Automation Environment	Can consume 1 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version	
Yes	IBM	MQ Advanced High Availability Replica	Can consume 10 VPC(s) for each 1 Cloud Pak license(s) Upgrade to latest version until 9/27/2024 Downgrade to any version
